📍 Pune, India

OBJECTIVE

Results-driven IT fresher seeking to start a career in a dynamic organization, leveraging skills in programming, databases, and emerging technologies to deliver effective solutions while continuously improving expertise.

SKILLS

Programming Languages: C Programming, C++, Java, Python, ADA, PHP, R programming, C#.Net.

Web development: HTML, CSS.

Database Management: SQL.

Software Skills: Git, GitHub, VS Code, PyCharm, MS Office, MS Word, MS PowerPoint.

PROJECTS

Image Steganography for Secure Data Embedding | Python

Built a steganography-based system to securely embed and extract confidential data within digital images using advanced encoding techniques. Implemented methods such as Least Significant Bit (LSB) to ensure minimal visual distortion while maintaining data integrity and confidentiality.

School Management System Login Page | Python

Developed a School Management System login module using Python to authenticate users securely. Applied input validation and basic security features to ensure safe access for different user roles.

Quick Sort Implementation | Python

Implemented the Quick Sort algorithm in Python to efficiently sort large datasets, demonstrating strong understanding of divide-and-conquer techniques and algorithm optimization.

EDUCATION

MIT Art, Design and Technology University

Master of Computer Application - Cloud Computing [Pursuing]

Pune

2025

SRNM College of Applied Science

Bachelor of computer Applications [CGPA - 8 average in all semesters]

Shivamogga

2022 - 2025

St Joseph's Aksharadhama PU College

PUC Commerce [EBAS] - 90 %

Shivamogga

2021 - 2022

COURSES & CERTIFICATIONS

- Python for Everybody - University of Michigan [Coursera]
- AWS Identity and Access Management - Basics [AWS Skill Builder]
- AWS Fundamentals Specialization [Coursera]

INTERNSHIP

Aspire Innovations - Completed 1 month internship on Python.

Shivamogga

March 2025 - April 2025

Step Ahead - AI & Cloud Intern [Remote]

Bengaluru

June 2026 - Present
